
Greeley Biology Club

Greeley Biology Club is an enthusiastic group of high school students who are keen to explore all things Biology.
We aim to make it fun and interesting!

All current and soon to be Greeley students are welcome to join.
Your enthusiasm and curiosity is all that is needed!

A few things that we plan to do...

- Share info and create awareness among members regarding opportunities for research and summer options in biology related topics
- Encourage participation in USA Biology Olympiad; share preparation tips
- Invite and host guest speakers
- Organize cool hands-on explorations (labs, etc)
- Volunteer / raise funds for special events
- ... we are open to new ideas!

Join us!

Sign up now for 2019-'20
